Languaging the New Paradigms

LOVEEVOLUTION: AWAKENING INSPIRATION THROUGH PLAY

DreamingBear is an award-winning author of eight books, & "spoken word genius" whose stand-up philosophical approach has inspired audiences at venues around the globe including Agape International Spiritual Center, Bodhi Tree Bookstore, The Alchemy Conference, New Living Expo, numerous music & arts festivals, yoga studios, colleges, universities & spiritual centers of all faiths. DreamingBear is frequently described as "modern day Rumi or Hafiz."

DreamingBear's Languaging the New Paradigms Playshop focuses synthesis of a broad spectrum of limit-edge sciences such as wave genetics, where scientists take DNA strands and put them under weak laser light conditions and expose them to word combinations & watch the DNA literally unfold, unravel, unlock and recombine. Proving that language on a primal material world level has the ability to recreate reality. DreamingBear uniquely blends modern linguistic alchemy & the ancient oral traditions of indigenous wisdom keepers in an art form known as Songlines.

- Re-articulate a new language that transforms the mundane into the magnificent with the foundation of communication as an opportunity for creating expanded thought-forms for the new paradigms. Learn the art of writing & creating Love Spells.
- Awaken your inner genius through merging the latest scientific discoveries with universal perennial truths as you invoke your ability to turn words into worlds through the esoteric art of manifestation called Chaos magic.
- Repattern your consciousness with the extrapolation of information from the zero point field as a source of wisdom & activation of internal technology that allows us to live in harmony with the natural world and harness its tremendous wisdom.
- Disengage the auto-pilot Observer & awaken pre-temporal memory.

Examples of playshop activities include stand-up philosophy, quantum conscious songlines, chaos magic & writing exercises, ecstatic play rituals, dance, vocalization & singing, tools for dream manifestation, and powerful verbalization techniques.
